LORRAINE'S PILLS, OR VEGETABLE UNIVERSAL MEDICINE CURATIVE OF THE

French College of Health, in Paris.
THE following letter was received yesterday by mail from Salem. It gives another evidence of the great success of Lorraine's Vegetable Universal Pills.

Sir—I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors, which at last rested on the vitals, and exhibited all the threatening symptoms of consumption. The general inability of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon restored to a perfect state of health.

J. E. NEVILL.

Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is worthy notice.

Sir—It took one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on, which had great charms, and I enjoyed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.

Yours truly, J. B. LIGHT.

Nov. 20th, 1841.

[From Boston Daily Mail.]

Somebody wisely says, that a cap loaded with ewels and flowers will not cure the headache, nor gold chains prevent the consumption. Lorraine's Vegetable Pills have done both.

Sir—I have been effectually cured of a severe headache by the use of Lorraine's Pills.

SARAH NOYES.

Sir—My daughter had all the threatening symptoms of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills.

Rev. J. KNIGHT.

New York City, Nov. 1, 1841.

Family Medicine.

Sir—I have used Lorraine's Pills in my family as a family medicine, and I would most earnestly recommend them to all persons, as the best medicine that can be procured. I would not be without them—they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 20m to \$100 per year for medicines and physicians; since then I have had no other doctor than Dr. Lorraine's Pills. JAMES NEAL.

Hartford, Conn. July 8.

Lame Back.

Sarah Snow was cured of a lame back in one day, when she had been unable to dress herself alone for two weeks.

Susan Jones of Boston, cured in 36 hours of lame back and side of three weeks standing.

Sick Headache.

Mrs. Bird of Providence says, that 'Lorraine's Pills have proved a real blessing to her. It has surpassed any thing that has been brought to the public notice. I have been cured of a sick headache that had afflicted me for years, by the use of Lorraine's Pills.

THE CONDITION.

The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accumulations. Lorraine's Pills admirably effect this, because they cleanse the bowels and purify the blood. The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels.

The extraordinary virtues of Lorraine's Pills depends upon extracts of over 50 different vegetables, all so admirably combined as to purify, nourish and invigorate the human system.

SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM, NAMELY:

Scrofula, or King's Evil, rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, biles, chronic sore eyes, ring worm or tetter, scald head, enlargement and pain of the bones and joints, stubborn ulcers, syphilitic symptoms, sciatica, or lumbago, and diseases arising from an injudicious use of the mercury, ascites, or dropsy, exposure or imprudence in life. Also, chronic constitutional disorders will be removed by this preparation.

The proprietors submit to the public the following certificate, from a highly respectable source, of a cure made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of the medicine.

NEW YORK, August 3, 1842.

"Messrs. Sands—Gentlemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of relieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1832 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affliction; and truly I can say, 'from the crown of my head to the sole of my foot there was no soundness in me.' From the time first mentioned down until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various specifics, among others a large quantity of Swain's Panacea, used sulphur baths, &c. As a last resort I was induced to wrap myself in a tar ointment, keep myself secluded, shunned by all, myself also shunning. I was induced to believe my case a hopeless one.

In August last, by the advice of friends, I went to the New York City Hospital, but was there told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent nearly \$3,000 without obtaining but little relief. After using it a short time, I found myself better, and now, by using six or eight bottles, costing me less than ten dollars, I am well. Yes, I certify and declare to the world, that after spending near \$5,000 in traveling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparilla; and I now recommend it to all similarly afflicted. Those wishing to know further particulars will find me at my residence, No. 27 Warren street, New York, where I shall be happy to communicate any thing in relation to the above cure.

KOLMSTOCK'S VERMIFUGE.

THIS remedy for worms is one of the most extraordinary ever used. It effectually eradicates worms of all sorts, from children and adults. THOUSANDS perish by worms without the real cause being known. Some other reason is assigned for their sickness, until too late to cure the real cause.

What immense responsibility then rests upon the parent who does not know, and the doctor who does not understand, the complaint which is destroying those precious flowers of life—children.

What should be done?

The answer is plain. Give this vermifuge, which will be sure to do good, if they have no worms; and if they have, it will destroy and eradicate them with a certainty and precision truly astonishing.

It cannot harm the smallest infant or the strongest adult. There is no mercury or mineral in it. Mercury is the basis of most worm remedies; and the remedy is sometimes worse than the disease. So never use lozenges, but rely upon this. Every person will be convinced on one trial, that it is the most perfect cure ever invented.

The immense sale that this vermifuge has, is a sure test of its value and the estimation in which it is held by families. It would be quite too expensive to publish the volumes of certificates that have been given for this article, and the users of it are requested to spread the name to all persons whom they think may be benefited by it.

Speak of it in all families, and you will do your duty to your fellow creatures, and feel assured of the approbation of all good men, and will receive your reward in heaven.

We call on all good citizens to make known the effects of this wonderful remedy.

Remember and ask for Kolmstock's Vermifuge, though Falmstock's is supposed to be the same article: the one that has become known to you through the advertisement should be used, in justice to the proprietors.

INKSTANDS.

JOHN S. SAYWARD, Editor.

SATURDAY, JULY 16, 1843.

FOR PRESIDENT,

HENRY CLAY,
OF KENTUCKY.

FOR GOVERNOR,

EDWARD ROBINSON,
OF THOMASTON.

SEE FIRST PAGE.

The Globe, Pennsylvania, Richmond Enquirer, and other leading loco papers have accomplished their purposes in flattering Captain Tyler, and now turn upon him with taunts for his treachery to the Whigs, and with scorn at his expectation of having any of his friends admitted to the "Democratic" National Convention. The Tyler touch, the Globe says, will be death to whoever willingly receives it. Thus the captain is early reaping the bitter fruit of his treachery from a quarter where awhile since he was most flattered. Well never was scorching rebuke more justly earned, and we like that the wages of the Captain's treachery and folly should be promptly paid.

It is a little funny, we must say, in this connection to notice the tone of the Captain's own presses. The Boston American, in speaking of these matters thus remarks:

"What, then, we would ask, has President Tyler to expect from a party holding such sentiments, and what has he to gain by placing men from such a party in office? We answer, nothing. And it is a source of satisfaction to us to be assured—as we have been—that when men of this stamp get into office, it is not through the wish of the Administration, but by fraud and deception."

We feel it incumbent upon us to notice the ingenuity of the Eastern Argus, in avoiding the mention of the name of our paper, even in cases where its editor feels constrained to give some kind of credit. The last instance makes the Argus editor appear bungling, which he never need do when disposed to be just. In making an extract from the letter of our Houlton correspondent relative to the Boundary Commissioners, instead of stating the simple fact that the correspondent of the Bangor Whig, &c., he says "Correspondence at Bangor from Houlton, June 24, says," &c. A very indefinite and bungling way of giving credit, as the Argus itself cannot but acknowledge.

We have no special pride in the matter of credit. There are certain items we never credit, as we consider them a sort of circulating medium among newspapers that every one has a right to use who will contribute his proportion towards keeping up the fund. But it is only when by repeated instances of apparent design we are treated differently from our contemporaries, that we notice such conduct. Such an instance it appears to us we have in the Argus, and as it is entirely different from any other paper in the State, it is right to mention it as an uncommon case.

At the Eastern District Convention, Shepard Carey, of Houlton, was nominated for Congress against the Hancock nomination of Mr. Jarvis. This nomination it is said is quite unsatisfactory to a portion of the party, and what course will be adopted against it is uncertain, but it is said that an opposition may be expected. The friends of Dr. Bridgman were a good deal incensed at the nomination of Mr. Jarvis and were determined to oppose him. The leaders of the loco party in Maine are so strongly bent on personal aims that they seem destined to destroy each other—the sooner the better and then honest people will stand some chance of being heard.

There appears to be a general disposition on the part of our citizens to have something done in behalf of the sufferers by the late disastrous fire at Fall River, but every one seems to be waiting for some movement to be made. We submit whether it would not be the most satisfactory and appropriate to have the Mayor request the citizens generally to meet in the early part of the week at the City Hall for the purpose of consulting together upon the subject. We make this suggestion because we believe a general movement among our citizens would secure greater aid to the sufferers than divided efforts by means of the several religious societies &c.

The body of a seaman named William Campbell supposed to be a Scotchman about nineteen years of age, was picked up in our river on Thursday evening last. About three weeks since he shipped on board the Schooner George of this port at Prospect and on Monday last he was spending the day on shore. In the evening about nine o'clock he left his associates to go on board and is reported to have been sober. Since this he has not been heard of until his body was found and identified.

He had very little clothing or money—only about enough to pay his funeral expenses.

Cream Candy.

This celebrated article that has won so many encomiums in Boston and Portland has at length been introduced into our city by our enterprising citizens Messrs. Vinton & Porter. They have obtained the necessary information and are now making the article in great perfection. The candying of cream with other excellent articles is something rather new under the sun and not even the Eringo roots, mentioned by old Fuller in his worthies of Essex, as being candied for strengthening the nerves, could compare with this new article.

The Annual Conference of the Methodist Episcopal Church commences in Bath on Wednesday next.

The Boston Mercantile Journal states that letters have been received from Mr. Perkins, the American Missionary in Persia, to the 16th May, at which time he had reached Trebizond, a city of 50,000 people on the Black Sea, with his family and Mar Yohannan. He writes that with the remarkable extension of commerce the facilities of diffusing Christian influence also increase. The amount of goods now sent annually from Trebizond over the mountains has increased to 30,000 horse loads."

The Enquirer of this morning has an ill-natured communication respecting our correspondent's articles on the Flora of Bangor. Envious people sometimes make themselves ridiculous. It is neither just or in good taste to attempt slurring any man on account of his profession, when that profession is a necessary one among men. The people are getting in the way of considering all useful professions honorable.

The important and costly article of Rail Road iron will in due time, we doubt not, be furnished from our own mines, and by our own labor and enterprise. We learn from the Pittsburgh-American that the proprietors of the Great Western Iron works, at Brady's Run, have just contracted to furnish 800 tons of rail road iron for the Michigan Central Rail Road.

The Salem Gazette says, that the shoe business, in that quarter, is now in a brisk and promising condition. In Lynn, every workman is employed, and in Salem and elsewhere, the case is nearly the same. Wages have risen to the average they have maintained for the last few years.

The bath Telegraph states that the sch. Drusilla, Jenks Master for St Domingo, when out six days, near the Gu f, was discovered to be on fire, but not in season to prevent her total destruction. The master and some of the crew have arrived home. They were taken off by a vessel just in season, and no lives lost.

Somerset Whig Convention.

The time appointed for holding of the Whig Convention in Somerset County, is changed from the 12th inst. to the 30th of August, on which day it is notified to meet at the Court House in Norridgewock, at 10 o'clock in the forenoon.

The Steamer "Splendid," Capt. A. Brown is to run from the Kennebec to Boston in opposition to the Richmond, on the same days, and at the same hour. She is 350 tons burthen, a trifle larger than the Huntress.

The Thomaston Recorder people are so used up with the Influenza that they could only appear with half a sheet this week.

The following truthful and pleasant passage occurs in one of Fredericka Bremer's books:—"There is much goodness in the world, although at a superficial glance one is so disposed to doubt it. What is bad is noised abroad, is echoed back from side to side, and newspapers and social circles find much to say about it; whilst what is good goes at best, like sunshine, quietly through the world."

For the Whig & Courier.

Pictures.

Why is it that we all love pictures? It cannot be for their beauty, for truthful likenesses image both the lovely and unlovely; neither is it their varied tints, or fine delineations alone that delight us, but may be all these combined, presenting objects to us more beautiful from familiarity.

We love a picture sketching far-off hills, and blue misty mountains, all in their calm, placid majesty, one above another, with a dimness that grows lighter, and thinner, and lighter still, until the fair sky away in the dreary distance is revealed, with below, like as the rest, still solemn trees, with boughs that seem drooping in very luxuriance of verdure.

But dearer than these are the quaint old home pictures, where one and all grouped, a whole home circle, among the trees perhaps, where in the shade of place is a quiet seat for some old grandfather or uncle, who looks so kind-faced and indulgent, we love his very image so natural it seems, if only in sympathy responding to what the smiling looks about him are mutely all the while expressing. There is sure to be a window, where the face of the busy mother is smiling affectionately upon them. Somewhere too, you may always find the grave old house dog watching complacently all they do. Very lovely to me are the associations of these homely scenes, breathing the beauty, I could say almost the spirituality of their blessed subjects into our hearts. For we wish in pictures a something light and beautiful however rough the scene itself may be, a something for the thoughts to rest upon of loveliness though among unsightly things, as in a painting known and cherished long ago, of a deserted dwelling. While beside the sinking roof and shattered doors, wearing with an appalling look of helpless desolation sad enough to haunt one, there were in the little desert garden, sweet dainty roses, struggling on against vile weeds for glimpses of the smiling sunshine, so precious in the old time, with loveliness and beauty enough to breathe a beauty throughout the whole. Not that all things lovely are beautiful on canvass either, for there are changes in the skies and waters, and tints upon the humble flowers, too beautiful a thousand times too beautiful to live but in their own native loveliness!

But dearer than all the rest, is that gift so often praised, the power to picture human lineaments, the dear and cherished ones, that will look the same in all life's changes. Surely, were this alone the artist's gift, and dearly as we cherish other scenes, we should be more than recompensed for the homage we each one owe a picture.

U. V. M.

A man with one eye met another with a hump on his back. Good morning, friend," cried he with the one eye. "You are stirring early with your head." "Yes," replied the representative of Richard the Third, "it must be early, for I see you've got but one window open yet!"

Ah!" said a Dutchman, "ov oll de shell fishes in de world, zow krout is de best mit 'em oll!"—"Och, ye fool," replied Pat, "it's nothing to be compared to a good pratie!"

Why is a half of a certain apple like a disease in chickens? Because it is pip (pippins.)

The present and past Administrations. Badly as the affairs of the General Government have been conducted by the present Administration at Washington, they are better in condition than during any period since the year 1828. It is true that a great many measures which the Whigs were pledged to carry out, and a great many reforms which they determined to execute, have been defeated by those whom they entrusted with power, but with all the circumstances of mortification at the treachery which they have experienced, the Government is conducted much more respectably than during either of the periods of Jackson or Van Buren.

The coarseness, vulgarity and ignorance introduced by Gen. Jackson, and by him entailed on Mr. Van Buren, have in a great measure disappeared at the White House, and the Kitchen Cabinet of Mr. Tyler, if they do not possess as much talent as those of his two predecessors, do not at least admit fitly minded and revengeful wretches into their company.

In the Treasury Department we have no reason to believe that such monstrous defalcations and frauds as were perpetrated and sanctioned during the period alluded to in the land offices are continued, or that defaulters are permitted to retain their places after they are known to be such. It is a matter, however, of mortification and regret that the infamous Auditors of accounts who were the instruments of these and other frauds, are allowed to retain their places and some of them have become the special pets of Mr. Tyler; but the exposure of the past will probably prevent a repetition for the future, unless Loco Focoism should again get possession of the Government, in which event the party would go on as formerly to plunder the public Treasury *ad libitum*, until the public debt instead of being twenty will amount to two hundred millions.

The plunder perpetrated at the Custom Houses, while in many respects it is not entirely prevented, is no doubt checked by the laws of Congress and the exposure of the various committees, so that one hundred and twenty dollars cannot be charged for a single ream of paper, or a dollar each for writing pens, or fourteen dollars for a bushel of sand. The miserable and rickety Light House system, such a disgrace to the nation, to science and to the age, has had its enormities so exposed that it must be reformed. The incompetency with which it is managed is so glaring that sympathy for weakness and ignorance cannot save it from a favorable change. The same fate awaits the management of the Revenue Cutter and Revenue Boat system. All of these matters would have been already acted upon by the Government, except for the silly notion entertained by Mr. Tyler of his re-election.

The Post Office Department, one of the most fruitful sources of fraud during the terms of Jackson and Van Buren, is believed to be, so far as the seat of Government is concerned, free from the scenes of villany practised at that period. The Postmasters themselves, who committed theft on a smaller scale throughout the country, are still, to a great extent, retained in office, but money is not poured out by hundreds of thousands in extra allowances as formerly, for electioneering purposes. It is true that the Postmaster General is obliged to stand by and see himself over-ruled by his worthless and unprincipled assistants, and is held responsible for acts which he abhors, but it is believed that the wholesale thieving which pervaded the Department under Locofoco rule has ceased.

It is true that Locofocoism from 1829 to 1841 was so bad that any change of course was an improvement. The government credit was entirely ruined—defaulters all over the land were as thick as the locusts of Egypt;—every man in office construed the Constitution as he understood it. The commerce of the country was entirely ruined by a series of commotions, which they termed experiments, brought about by the quacks at Washington. Agriculture and manufactures were entirely prostrate, and it may be doubted whether the country at large rejoiced more at the overthrow of Loco Focoism in 1840, than did the Administration themselves. They had run the race of their experiments, and they saw the ruin they had brought on the country, and the disgrace they had entailed on themselves. As a government they could exist no longer, even had Mr. Van Buren been re-elected. Tylerism is therefore, much as we condemn it, a thousand times better than Loco Focoism.—N. Y. Express.

By the Last Mails.

Loss of a Whaling Schooner and Five Lives.

The New Orleans American states that the American Schooner Mercury of Plymouth Mass. having fifteen men on board capsized in a gale in the Gulf of Mexico on the 21st ult. The captain and six of the crew saved themselves in a boat and landed 60 miles from Rio Grande. On the 26 ult a Spanish Schooner fell in with the wreck and saved therefrom three more of the crew.—Great praise is due the Spanish Capt. Franco de Astegia in putting his own life in eminent peril to save these men and for his kind treatment to them on board his vessel.

The names of those who perished are, Wm. H. Godfrey, Henry Missing, George Jones Wm. Pearce, and Wm. Hatch, seamen.

Louisiana Election.

The election for four members of Congress took place on the 3d inst. The accounts received state that John Slidell (Locofoco) is probably elected in the 1st district.

In the 2d district Edward D. White (Whig) has a majority of 111 in the 2d Municipality.—There are eight or nine other parishes in the district, most of which usually give loco majorities. The result is doubtful.

No returns from the 3d and 4th districts. The Whigs of N. Orleans have elected their candidate to the Legislature, Felix Labatut, to supply a vacancy, by 32 majority.

In the last Congress the delegation from Louisiana, consisted of two Whigs and one Loco.—Under the new apportionment she elects four members.

A Press Destroyed.

We learn from the Springfield (Illinois) Jour. that on the night of the 13th ult., the office of the Juliet Signal, a Whig paper, was violently entered, and several portions of the press taken away and secreted—the object being to prevent the publication of the paper till after the election. Mr. Westworth, an opposing candidate, was among the authors of the outrage.

John Quincy Adams is now on a visit to Albany and Saratoga Springs, neither of which places has he ever before visited.

Several Accidents.

We learn from the Piscataquis Farmer that a lad named Joseph Mitchell, aged fourteen years, was severely injured in Shirley on Friday last by the fall of a tree. His left thigh was broken in such a manner that the bone protruded through the skin. The left arm was broken above the elbow; two teeth torn from the upper jaw, and the skull fractured to an alarming extent.

Medical aid was not obtained until the next day, when the injured limbs were properly dressed, twenty four hours after the accident. The operation of trepanning the skull was resorted to, several pieces of bone were removed, which penetrated the skull to the depth of three-fourths of an inch. The operation was successful, and the boy is likely to recover.

The Eastport Sentinel states that two young men, Geo. Stewart of Bristol Eng and Charles Eschar, of Mt. Rose Scotland, left that town on Sunday in a boat for the purpose of taking a sail. They were seen sailing in the evening, and the next morning the boat was found bottom up. It is supposed they were capsized and both drowned.

The same paper says that an fishman named Roach was accidentally killed in St. Stephen by a log rolling over his body.

The Steamer Columbia.

We understand, says the Boston Bulletin, that the Steamer Columbia is insured in London to the amount of fifty thousand pounds. Hopes are entertained that the ship will yet be saved, she being a strong boat and having borne the perils of her position well till the last advices, 43 hours after the steamer grounded.

Yellow Fever at Vera Cruz.

An arrival at New Orleans, six days from Vera Cruz brings information that the yellow fever was making frightful ravages in that city.

The new constitution was sworn in at the city of Mexico on the 13th of June, and was to be sworn in all the Departments within a few days thereafter.

The Boston Post states that on Wednesday evening Mr John Brenen employed as a watchman in the car house on the Fresh Pond Rail Road was struck by a detached car moving upon the road and the car loaded with stone passed over both his legs mangling them in a shocking manner. Amputation was performed but little hopes were entertained of his recovery.

The Whig convention in the 4th Congressional District held at Readfield on the 11th inst., nominated LUTHER SEVERANCE as their candidate for Congress. An excellent selection and we hope with our whole heart he will be elected. Hon. Robert Goodenow was elected a delegate to the National Convention.

The St. Stephen Courant says that a young man named Samuel Fleming while engaged in a lath machine at Ferry Point, had his head cut open by a circular saw to the depth of an inch. He is likely to recover.

A store was set on fire in Boston on Tuesday morning. The goods were removed from the Catholic Bookstore, and but little damage was done.

The latest news from Mexico represents the country in a deplorable condition—discontent prevailing the people, and the country just on the border of another revolution.

VALENTINE'S PATENT WATER WHEELS.
FRANKLIN MUZZY & CO. have been appointed Agents for the manufacture and sale of Valentine's Patent Cast Iron Reaction and Tub Water Wheels, and would give notice that they are prepared to furnish them to order, and also any other Castings and Machinery that may be wanted therewith, at their STEAM IRON WORKS in Bangor.
July 12, 1843.

PATENT MILL WHEELS.
THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.
These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order, they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs., Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co. Bangor; Hon. J. S. Little, Portland; Hon. John Ous, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Peirce, Esquire, Frankfort; Daniel Dennett, Esq. Milo; Col. Her Orne, Milton; Messrs. Fiske & Bridge, Milford; Wadleigh, Esq. Oldtown; Capt. R. Fitz, Dedden John Black and John M. Hale, Esqrs. Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of MESSRS. HINCKLEY & EGERY and FRANKLIN MUZZY & Co. in the city, who are furnished with a great variety of patterns, so that Wheels of any particular description or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.
